SUMMARY

Currently transitioning from data analysis into full stack web development, backed by a Bachelor's degree in Computer Science and a Master's degree in Computer Systems. Application development has always been a passion of mine, and I have spent this transition building a project portfolio centered on React, Next.js, and TypeScript. My goal is to build fast, reliable applications that bridge my data science background with modern web frameworks.

SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6), TypeScript, SQL, Python.
- **Frontend:** React, Next.js, Redux Toolkit, Tailwind CSS, Shadcn/UI.
- **Backend:** Node.js, REST APIs, Express, GraphQL, tRPC.
- **Tools and Others:** Git/GitHub, CI/CD, Jest, Cypress, Agile, Scrum, PostgreSQL, MongoDB, Prisma, Docker, Vercel.

PROJECTS

TaskFlow Team Task Manager

- Built a full stack Kanban-style task manager with Next.js (App Router), TypeScript, and PostgreSQL via Prisma
- Implemented real-time updates with WebSockets and optimistic UI updates using React Query

PROFESSIONAL EXPERIENCE

Data Analyst May 2024 – May 2026
Veeva Systems Remote

- Validated and processed data across several healthcare and pharmaceutical clients, identifying and resolving inconsistencies that reduced data errors by approximately 15%.
- Designed and built interactive dashboards using Tableau and Power BI to surface key data quality metrics, presenting findings to stakeholders and driving improvements to the data collection pipeline.

Associate Data Researcher May 2024 – May 2026
FINATEC Brasília, DF - Brazil

- Assisted with data collection and processing using Python and R, as well as writing scientific articles using LaTeX.
